We greatly appreciate your membership! In today's world, it's critical to have an industry association that speaks with an organized, cohesive voice. This world moves quickly, and technology, while efficient, creates a very fast-paced avenue of communication.

2018 was a great year for PISA:

- PISA played an integral role in legislation.
- Successfully worked with DCJS to in regards to many topics related to the industry.
- Met with likeminded organizations to identify potential synergies.

Your membership and participation are extremely important, because PISA only exists due to the care and support of its members. Your continued membership assures that we remain a relevant voice within and beyond Virginia; as a PISA member, you receive notifications of important legislation and regulation that may impact you or your business.
